NEW FUNDING OPPORTUNITY!

Specialist, Sub-specialty, Indigenous and Funding for Innovation (SPIFI)

Funding available to eligible groups of specialists, family physicians with sub-specialties, and Indigenous communities living and working in RSA communities for planning, development and delivery of innovative community RCME educational opportunities. This funding is offered in addition to individual RCME and community RCME allocations.

For more information on SPIFI <https://rccbc.ca/education-and-cmecpd/cmecpd/communityrcme/spifi/>

REAKT: RAPID EVIDENCE AND KNOWLEDGE TRANSLATION FOR RURAL PROVIDERS DURING COVID-19

REAKT is a personalized service for rural providers dealing with the COVID-19 pandemic. Volunteers respond to specific questions posed by providers, which may involve evidence review and summary, sourcing existing resources such as pre-printed order sets, or sharing ideas and innovations. Responses are rapid and sent directly to the provider making the request as well as contributing to an expanding online library of resources.

Ask a question now: bit.ly/askreakt

See questions and answers: ubccpd.ca/rural/reakt

REAKT is a service provided by the Rural Coordination Centre of BC (RCCbc) and the UBC Division of Continuing Professional Development's Rural Program (RCPD).

RURAL COORDINATION CENTRE OF BC (RCCBC) – RCME COMMUNITY PROGRAM NEWSLETTER

First issue of the RCME Community Program newsletter is out! This communication aims to highlight key initiatives and community developments provincially within the new RCME Community Program – an initiative of the Joint Standing Committee on Rural Issues (JSC).

The newsletter will be released on a quarterly basis.
