

BC Patient Safety and Quality Council Forum – Event Details

February 25th, 2020

Quality Forum 2020 Livestream – Health Talks

When: 7 pm to 9 pm

How to Watch:

- [Visit this link](#)

Description: [Health Talks](#), our annual evening event, starts with a ceremony to recognize the eight winners of the BC Patient Safety & Quality Council's annual [Quality Awards](#), which celebrate improvements in quality of care. Then, eight engaging and passionate speakers will answer the question What are your hopes for health care? using the PechaKucha 20x20 format, where each presentation contains 20 photos and each photo is displayed for exactly 20 seconds before automatically advancing to the next one.

***The above session is in the evening and will not be streamed live in HSBC 4th Floor Finlay Room.**

February 26th, 2020

Quality Forum 2020 Livestream – Plenary Presentation: Sickboy Podcast

When: 2:30 pm to 3:10 pm

How to watch:

- [Visit this link](#) at the time the session begins to start the livestream!
- In Prince George, drop in HSBC 4th Floor Finlay room where conference will be streaming all day

Description: Join us as we close out the Forum with this plenary presentation from the hosts of Sickboy Podcast.

- The three creators who make up Sickboy – Jeremie Saunders, Taylor MacGillivray and Brian Stever – are hilarious, ridiculously insightful and determined to break down the stigmas associated with illness and disease. Sickboy began because they recognized that when faced with difficult situations, illnesses and diseases, people tighten up, get awkward, and simply don't know what to say. Taking the lead from Jeremie's life long battle with cystic fibrosis, they help people understand that sometimes the best way to deal with illness, disease and life is simply to laugh. Through the therapy of laughter, we can begin to understand that whether sick or healthy, we're all human, and we're all dying, so let's talk about it.

Sickboy started in a public library recording room, moved into the hosts' own recording studio, was funded by a hugely successful Kickstarter campaign and within weeks was among the top rated podcasts in the country!
