

ZERO TOLERANCE FOR ASTHMA **ATTACKS**

Help your patients at risk

INVITATION

Do you believe some asthma patients over-rely on SABAs?

If so, this can lead to an increased risk
of preventable asthma attacks.

*Take a zero-tolerance approach to
asthma attacks.*

**By participating in this 1-hour group
learning educational program,
participants will gain:**

- Awareness of the consequences of uncontrolled asthma and preventable asthma attacks
- Effectiveness in determining the causes of uncontrolled asthma, improving asthma control and preventing asthma attacks
- Confidence in selecting the optimal treatment for patients with asthma uncontrolled on ICS+SABA or ICS/LABA+SABA
