

Formulary Update
NH February Formulary Update
Effective February 22, 2017

Additions:

Formulary

- Ulipristal acetate tablets

Formulary Restricted

- Idarucizumab: Formulary restricted to patients on dabigatran, presenting with overt uncontrollable or life-threatening bleed or need for truly emergent procedures that cannot be delayed for at least 8 hours and where normal hemostasis is required.

Medication salt clarification:

- That tenofovir tablets be clarified in the formulary as tenofovir disoproxil fumarate
