

YOU ARE INVITED TO JOIN US ON

for a contemporary and clinically relevant educational activity. This interactive, evidence-based program was developed by leading Canadian experts to address the most common and challenging clinical encounters in the management of patients with atrial fibrillation and venous thromboembolism specifically relevant to physicians in the primary care practice.

AGENDA

The following modules will be presented:

- Didactic Review:** 2017 AF Update
- Interactive** Game-Show
- Case 1:** Perioperative Management
- Case 2:** Managing AF & GI Bleeding
- Case 3:** Managing AF & TIA
- Case 4:** Managing AF & CKD
- Case 5:** Managing AF & CAD, PCI/ACS
- Case 6:** Managing Venous Thromboembolism
- Case 7:** Managing AF in the Elderly
- Case 8:** Personalizing the Management of AF in a clinical setting

LEARNING OBJECTIVES

Atrial Fibrillation

Upon completion of this activity, participants will be able to:

- Select personalized treatment options for stroke prevention in atrial fibrillation using current Canadian Practice Guidelines supplemented with reassuring “Real World” experience
- Assess and optimally manage bleeding risks in patients peri-operatively or with a past history of a gastrointestinal bleed
- Determine optimal antithrombotic therapy in AF patients with specific and common co-morbidities, including advanced age, prior stroke or TIA, worsening renal function, CAD, or risk of noncompliance with medical therapy

Venous Thromboembolism

Upon completion of this activity, participants will be able to:

- Establish the pre-test probability for deep vein thrombosis (DVT) by history, physical exam and Wells Score tool
- Select the appropriate diagnostic test(s); D-dimer, and ultrasound (US) in accordance with pre-test probability
- Determine when a proximal and full leg US follow-up is indicated
- Prescribe initial treatment adapted to diagnostic test results for above and below knee (DVT) and select appropriate dose and duration of anticoagulation therapies

This Group Learning program has been certified by the College of Family Physicians of Canada and the Chapter for up to Mainpro+ credits.

This program is supported in part through an educational grant from the BMS/Pfizer Alliance Canada
