

DISCONTINUATION of DRUG: Abciximab 2 mg/mL Injection

The issue: Abciximab injection has been discontinued by Janssen, the sole source producer, with no other vendors available on market.

Implications for Practice: **Low**

Northern Health has not routinely stocked or used abciximab injection; however, staff should still be aware this product is no longer available.

Alternatives*

- Eptifibatide injection

Date: June 29, 2018

Best Practice	
Drug Discontinuation	✓
Label Change	
Medication Change	
Recall	
Vendor Change	
Drug Shortage	
Formulary Changes
