CENTRE for EXCELLENCE  
in HIV/AIDS

# Intensive Preceptorship Program

The award-winning BC Centre for Excellence in HIV/AIDS Intensive Preceptorship Program supports the **professional growth and development** of primary care practitioners wishing to expand the scope of their practice and to achieve **competence and confidence** in providing the best possible care to patients with HIV/AIDS.

## Learning Objectives

- Assess patients and initiate/modify antiretroviral therapy as appropriate;
- Monitor and identify patients with treatment failures and toxicities;
- Assess HIV-related co-morbidities; and
- Provide a comprehensive primary care plan to HIV-positive patients.

## Program Benefits

- Comprehensive integration of the new research evidence, demonstrated best practices, expert guidance and tailored support
- Rapid rotation across units with an intensive format
- Blends strengths and opportunities that exist at the BC Centre for Excellence in HIV/AIDS with the individualized goals of each trainee
- Observed impact on practice and quality of HIV care <sup>1,2</sup>

## Accreditation

The Intensive Preceptorship Program is accredited by the College of Family Physicians of Canada and the BC Chapter for up to 50 Mainpro+ Credits

## Program Outline

**01 Self-Directed Learning**  
HIV Diagnosis  
and Management Online Course

**02 Clinical Placement**
