

Drug Shortage Resolved

Hydrocortisone Na Succinate Vials and Methylprednisolone Na Succinate Vials

The Issue:

The shortage of all hydrocortisone sodium succinate vials is resolved. The shortage of most methylprednisolone sodium succinate vials is resolved with only one vial size on allocation.

Practice Implications:

Stock is now available for both IV corticosteroid products. Sites can now order in stock as required.

Thank you to NH staff and physicians for your patience during this shortage.
