Secure Texting with MicrobloggingMD (MBMD) **App Support**

MBMD Requires Northern Health's Mobile Device Management - Intelligent Hub

Once the Intelligent Hub has been installed on your device, the MBMD app is pushed automatically to your Android or iOS device.

A MBMD icon will be added to the devices home screen

🕻 App Store 📶 🗢 1:45 PM

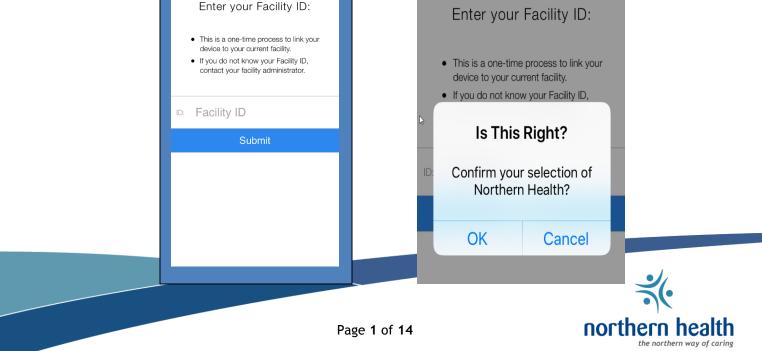

For Samsung smartphones, the app will appear in Workspace Workspace

MBMD Configuration and Setup

Once the MBMD application has been launched for the first time, the user will be prompted to enter the Facility ID. Enter "Northern" for the Facility ID and then select the "Submit" button to continue.

When asked to confirm "Northern" as the facility, select "OK". A prompt will appear advising the selection has been saved.

A prompt will then appear allowing users to enable Push notifications. Select "Enable" at this prompt and then select "Allow" when asked to allow Notifications.

The MBMD home screen will appear and the application is now ready for use

MBMD Home Screen

The first screen that appears after logging into MBMD is the home screen. The selectable options on the home screen are outlined below.

Allows user to adjust their notification settings, PIN number and other preferences

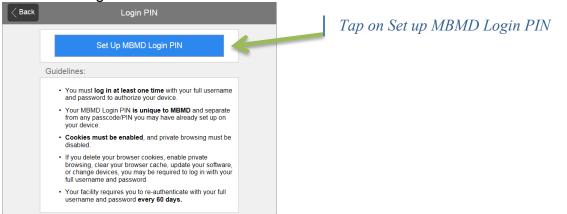

Settings

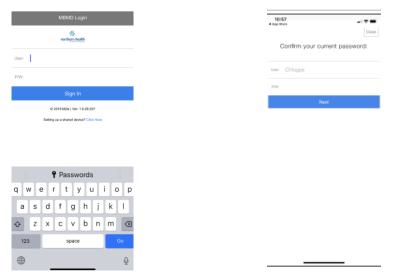

To set a Login PIN, tap on Settings in the bottom right of the MBMD app.

Login PIN: change existing PIN, attached to phone based fingerprint or facial recognition

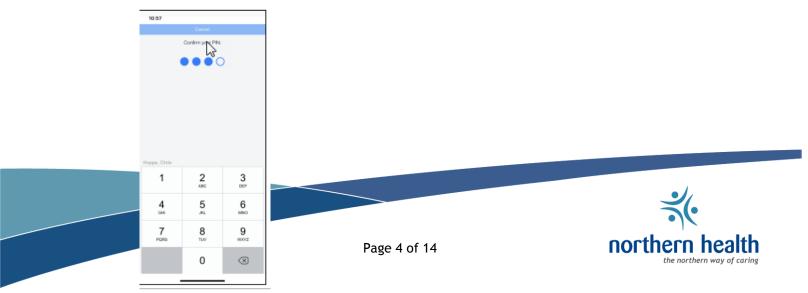

1. Select the Login PIN

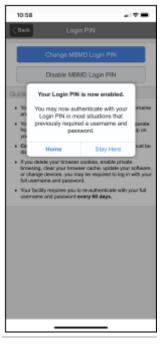

- 2. Change MBMD Login PIN -> I have read and understand the Login PIN Guidelines -> Yes
- 3. Confirm your current NH Password -> Username -> PW

4. Create a 4-digit Login PIN

5. You may now authenticate with your Login PIN in most situations that previously required a username and password -> Home

6. Sign out and Sign In again to activate

 Touch ID for MBMD – Use Biometrics to log in to MBMD -> OK. Enter your Northern Health password to verify biometric access

Additonal Settings

Preferences: Adjust conversation appearance

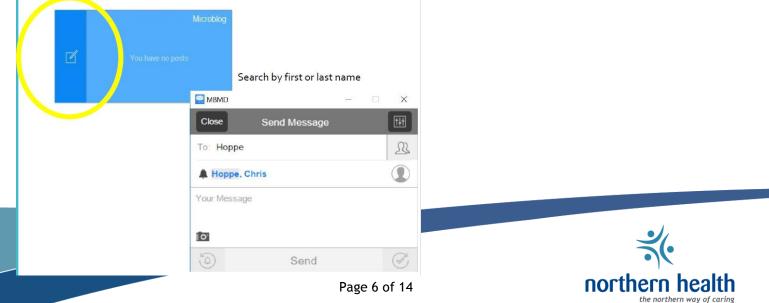

Bulk Archive: last 24 hours

Keywords: create personal keywords accessed via qq in conversation

Feedback: Provide feedback to Northern Health and MBMD regarding application.

Messaging

Compose a Message – Search for names by either first or last name. Several individual names can be selected, or entire groups, or individuals within a group.

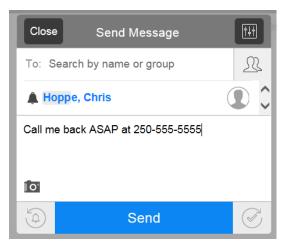

Each Message is time stamped and a Red Clock will appear to the left of the message indicating the message has not been viewed

When the recipient opens the message, the Red Clock will change to a Green Check indicating the message has been viewed

Bell Icon and recipient name in <u>blue</u> indicates user is actively receiving notifications. Absence of Bell Icon and name in gray indicates user is off duty or not receiving notifications.
